## Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. **PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## NOTICE TO NEW BIDDERS

**Our Mail Auction Sales Are Conducted in the Following**

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

**ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

# IS THIS YOUR FIRST AUCTION CATALOG?

## 11th EDITION GUIDE BOOK USED IN CATALOGING THIS SALE

**Proof coins, branch mints 1892-1940 unc., and currency** seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** In the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE  
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

## BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went a bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

# YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over two hundred successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

## DOUBLE TYPE SET HALF DOLLARS

This collection was assembled with the idea of displaying both the obverse and reverse. Where more than one date of a type was issued, he acquired different dates. He also acquired one specimen of each mint from each type. A rather interesting collection which "makes sense."

- 1—TYPE I, Liberty with flowing hair surrounded by 15 stars for states, eagle with long wings 1794 very fine and sharp. First year of silver coinage. RARE. \$ 200.00
- 2—1795 M in AMERICA appears to be recut over some other letter, extremely fine. RARE. 250.00

3—TYPE II, Hair of Liberty tied in ribbon knot at back, surrounded by 15 stars smaller eagle with "1½" below, 1796 MAGNIFICENT BRILLIANT PROOF. Rare in any condition but EXCEEDINGLY RARE IN THIS REMARKABLE CONDITION. Truly an outstanding showpiece. With 1796 quarters in proof now approaching \$2000.00, this is many times rarer "presentation piece" (we do know several complete "proof" or "presentation" sets were made up for this, the first year of complete U. S. coinage of copper, silver and gold) should certainly be worth three or four times as much. However, until this beautiful proof is recognized for the rarity it is, it will probably bring closer to 4000.00

- 4—1797 Similar type, extremely fine, VERY RARE SO CHOICE. The Dupont specimen in very fine 2½ years ago brought \$1500.00; certainly this superior one is worth at least 2000.00
- 5—TYPE IV (type III is the 1796 with 16 stars for admission of Tennessee to the Union as the 16th state) 1801 stars standardized at 13 when it was seen how impracticable it would be to add a star for each new state, Large heraldic eagle with 13 stars above, a sharp very nearly uncirculated specimen (the choicest obtainable in 15 years of searching). We have yet to see an uncirculated specimen. VERY RARE SO CHOICE. First year of type. 200.00
- 6—1803 Similar type with large 3 and small reverse stars, very nearly uncirculated. RARE SO CHOICE. Catalogs unc. 85.00

## DOUBLE TYPE SET HALF DOLLARS (Continued)

- |  |        |
|--|--------|
| 7—TYPE V, 1807 Head left in round cap, different eagle with motto above, variety with 50 OVER 20 (engraver must have been day-dreaming and thought he was cutting the die for a 25c) uncirculated with golden patina. First year of type. RARE. ....   | 75.00  |
| 8— <b>1829 GLITTERING BLuish PURPLE PROOF. RARE. Greatly undervalued in comparison to what the later listed proofs are bringing. The catalog recognizes these early unlisted (too rare to list) proofs with the following on page 110, "Proofs prior to 1855 are known to exist of some dates and all are rare."</b> .....   | 200.00 |
| 9—TYPE VI, 1836 Change in liberty head and eagle, motto omitted, smaller but thicker in size with reeded edge, "50 CENTS" on reverse, extremely fine. SCARCE. It is interesting to note that the law authorizing this new type was not passed until 1837. Actually, the 1836 is a pattern made in "sufficient quantities for sample" (same is true of the 1856 flying eagle cent) and later put into circulation when the novelty of a new design was lost with the issuance of the 1837. .... | 90.00  |
| 10—1837 Similar, prooflike with bluish golden patina. Acquired as a "proof" at \$150.00 but actually should not be worth at the most over one third that amount.   |        |
| 11—TYPE VII, 1838 Different reverse, "HALF DOL.", Larger Letters and different olive brance, another acquired as a "proof" at \$150.00 but actually brilliant uncirculated with prooflike surface. A little scarcer than above plus "first year of type." Worth slightly more than above.  |        |
| 12—1839 Similar type, extremely fine and sharp. Scarce. ....   | 20.00  |
| 13— <b>TYPE VIII, 1839-O Mint mark on Obverse above date, very nearly uncirculated. RARE AND IN GREAT DEMAND. This coin has risen spectacularly in value. In 1953 we sold uncirculated specimens at \$35; now if we had an uncirculated specimen in stock, we would ask \$350.00. ## \$10 GOLD

We note a strong demand for gold resulting in new records being set. This is understandable when a little reflection will show that gold, until now, has not kept pace with minor and silver coins. It appears that the situation will now be rectified and gold will take its proper place in increasing demand and rising prices along with the silver and minor coins. Certainly, the premium over the actual gold content value is ridiculously small.

## CHOICE LARGE CENTS

We note a sharp increase in demand (and prices) for choice large cents during the last year or two. With the impending publication of Dr. Sheldon's new revised book on large cents, we believe a further increase in collectors will take place (as well as new records being set).

**151—1793 S-3, CHAIN AMERICA, acquired as "about uncirculated" and while we agree that the reverse is very close indeed to being uncirculated, the obverse has either been struck a little flat on the top hair strands or else received some "cabinet friction." There are, however, some traces of red in the pleasing lustrous brownish-steel patina. A beautiful and highly desirable specimen and one of the choicest to pass thru our hands. Acquired a year ago at \$650.00; should certainly be worth as much or more today.**

**152—1793 S-4, CHAIN WITH PERIOD AFTER LIBERTY AND DATE, extremely fine. Very difficult to obtain, particularly so choice. Judging from the strong demand for this major variety and the few specimens to come upon the market, particularly in such choice condition, this coin is greatly undervalued. The owner states that this was one of the most difficult coins for him to obtain in choice condition. Acquired about two years ago at ..... 500.00**

## CHOICE LARGE CENTS (Continued)

- 153—1793 S-5, WREATH, VINE & BARS, LARGE DATE & LIBERTY, acquired as "extremely fine." The obverse is just about that with a very minute rim nick, the reverse is closer to uncirculated. A choice example of this scarce major variety (we believe this should be listed as a major variety as is done with some of the later dates). Should certainly be worth somewhat more than the usual wreath type cent. ----- 350.00
- 154—1793 S-6, WREATH, SMALL DATE & LIBERTY, Vertical Stem To Leaf, sprung die, extremely fine with even granulated surface. Nearly as scarce a die as above. ----- 325.00
- 155—1793 S-8, WREATH, Horizontal Stem To Leaf, very fine and sharp obverse, extremely fine reverse (acquired as "extremely fine"). As scarce a die as above altho not quite as popular (possibly because it resembles the more "common" die). Cost --- 250.00
- 156—1793 S-9, WREATH, usual die encountered and in demand by "date" collectors. A remarkably choice specimen acquired as "about uncirculated with slight cabinet friction." We do agree that it is a beautiful lustrous brownish-steel specimen with just the barest friction on the highest points. One of the choicest specimens to pass thru our hands in the last year or two. We note the catalog has reflected the increasing demand for this date with a 20% rise in value in the last edition. Cost \$495.00 just about a year ago.

157—1793 S-10, WREATH, PERIOD AFTER AMERICA (a major variety which we believe should be listed) acquired as "about uncirculated." The obverse shows just the barest friction and is spotted thru the olive brown color, the reverse appears to actually have had only the barest "cabinet friction" (this term arose from coins acquiring slight rubbing from sliding over the velvet in the old-time coin cabinets). A highly desirable specimen of this rarity (at least 3 times as rare as the above die). In fact, the second rarest of all the wreath varieties. With an old record of \$1500.00 for an uncirculated specimen, this one should certainly be worth at least ----- 650.00

- 158—1793 S-11b, WREATH, LETTERED EDGE, 2 LEAVES, extremely fine and choice with an even olive-brown color. A major variety (as distinguished from the usual one leaf) which we believe deserves separate listing in the catalog. VERY RARE SO CHOICE. Acquired over a year ago at ----- 550.00
- 159—1793 S-11c, WREATH, LETTERED EDGE, 1 LEAF in edge lettering, very nearly uncirculated with a light brown obverse and a deeper brown reverse. VERY RARE SO CHOICE. Acquired about two years ago at ----- 500.00

160—1793 S-13, LIBERTY CAP, very fine with chocolate-steel color. RARE. IN GREAT DEMAND FOR TYPE. We note a substantial rise in value for this date during the last year. Should now bring around ----- 900.00

161—1793 S-14, LIBERTY CAP WIITH BISECTING, OBVERSE DIE CRACK characteristic of this die, extremely fine with the reverse being nearly uncirculated. ONE OF THE CHOICEST SPECIMENS WE HAVE SEEN. EXTREMELY RARE IN THIS REMARKABLE STATE OF PRESERVATION. In fact, WE BELIEVE THIS TO BE AMONG THE TOP THREE SPECIMENS KNOWN. Twice as rare as S-13 and extremely rare so choice. Should certainly be worth between \$1750.00 and ..... 2000.00

162—1793 S-16, LIBEKTY (R open at top so it resembles a K) CAP, VERY RARE DIE VARIETY IN CHOICE CONDITION. Dr. Sheldon states, "I have seen 7 coins from this pair of dies. At least two more are known to rumor. The best one went to the ANS (American Numismatic Society). This coin is about fine 12, although the lower obverse is weak and it has been burnished and recolored." This specimen now being cataloged has a very sharp impression and approaches very fine, some roughness of surface. From Dr. Sheldon's description, this specimen may well be superior to the above "finest known" which is off the market. CERTAINLY, THIS "MUST" FOR DIE VARIETY COLLECTORS WHO WANT THE FINEST, IS DESERVING OF SPIRITED BIDDING. We hesitate to place an estimate on this-outstanding rarity but would not be surprised to see it bring somewhere around ..... 2000.00

164—1794 S-24, Full Cheeks variety, beautiful lustrous chocolate uncirculated. VERY RARE SO CHOICE. Acquired as a "PROOF" which is easily understandable with its beautiful prooflike surface. Cost \$495.00 and may well bring more, possibly \$550.00 to ..... 600.00

197—1795 S-78, PLAIN EDGE, "One Cent" Centered, acquired as a "PROOF" and it does have a beautiful golden-brown prooflike surface. The Dupont specimen three years ago brought \$210. Certainly this magnificent gem three years later should be worth over ..... 300.00

IT IS DIFFICULT TO VALUE A NON-COLLECTIBLE, BUT JUDGING FROM THE INCREASED DEMAND FOR RARE AND CHOICE LARGE CENTS SINCE DR. SHELDON COMPILED HIS BOOK ABOUT TEN YEARS AGO, WE WOULD NOT BE SURPRISED TO SEE THIS OUTSTANDING RARITY BRING BETWEEN \$750.00 AND .....\$1,000.00

**267—1798 S-178, REVERSE 1796 with singles leaves at top, CLOSE  
DATE. EXTREMELY RARE (RARITY 8). DR. SHELDON SAYS,  
"I HAVE SEEN ONLY FOUR. ONE OTHER HAS BEEN RE-  
PORTED". Very good. ONE OF THE "PRIZES" OF THIS  
COLLECTION. Acquired in one of our past sales several years  
ago at \$130.00. The Dupont specimen in somewhat better  
condition brought \$500.00. Definitely a major variety which  
we believe should be listed in the catalog (which lists the wide  
date and 1796 reverse). With the increase in demand, we  
would not be surprised to see this outstanding rarity bring over** 175.00

281—1800 S-209, Widest Date, extremely fine as to wear but some roughness of surface. RARITY 5. Not in Dupont collection. Cost \$150.00 but with the increased demand we would not be surprised to see this rarity bring closer to .....	200.00

Should certainly now be worth over .....	300.00
284—1801 S-215, Very Close Date, Pointed First 1, very good. Very RARE (RARITY 7). Dr. Sheldon says, "Have seen eight or ten different examples" (of which only 8 are available to collectors). The Dupont specimen (very fine) three years ago brought .....	175.00

**293—1802 NC-1, Bisecting crack across obverse characteristic of this die, fine and sharp approaching very fine. VERY RARE. When Dr. Sheldon's book was compiled 10 years ago, he said, "Only five known to me, two of them in the ANS collection." (leaving only 3 in the hands of collectors). Since then, we understand several additional specimens have been discovered in considerably worn condition. In comparing the specimen in the Newcomb book, THIS APPEARS TO BE THE ONE PICTURED IN NEWCOMB AND MAY WELL BE THE "FINEST KNOWN" OF THIS RARITY. At one time, this rarity was valued at \$1,000.00; but with additional specimens known, perhaps it will bring closer to half that amount now.**

- 299—1802 S-235, 4 Berries on right side, very nearly uncirculated with a beautiful golden brown color. RARITY 4. Dr. Sheldon says, "Very hard to find better than Fine, and the third rarest of the 1802's that were known to Doughty. Basal value nearly doubled. Cost ..... 125.00**

- 304—1802 S-240, Diagonal crack lower right field, a "strong fine." RARE (HIGH RARITY 5). Dr. Sheldon states, "The rarest of 1802's that were known to Doughty, and an extreme rarity better than Fine. .... 50.00

## CHOICE LARGE CENTS (Continued)

- 308—1803 S-244, Small wide curved date, small fraction, uncirculated chocolate brown color. RARITY 4 with 40% increase in basal value. With a condition census of 50-25, this may well be "THE EQUAL OF THE FINEST KNOWN". Cost \$165.00 but now may bring closer to ..... 200.00

312—1803 NC-1 (AN UNUSUAL OPPORTUNITY TO ACQUIRE A "NON-COLLECTIBLE") Farthest 1 and 3, very good altho the reverse is sharper than the obverse. A REAL "PRIZE". DR. SHELDON SAYS, "ONLY THREE EXAMPLES KNOWN TO ME, ONE OF THEM, NEAR MINT STATE, IS IN THE ANS COLLECTION." This, of course, LEAVES ONLY TWO IN THE HANDS OF COLLECTORS. Cost \$395.00, but in view of its extreme rarity, we would not be surprised to see it bring well over 500.00

- 313—1803 S-251, Short fraction bar, fine, tiny nick. .... 10.00
- 314—1803 S-254, Fraction bar too far right, very nearly uncirculated with even chocolate color. Cost ..... 65.00
- 315—1803 S-255, Very wided date with 03 close, uncirculated chocolate. RARE SO CHOICE. The Dupont specimen three years ago brought \$85.00; this one cost \$100.00; should now be worth over 125.00
- 316—1803 S-256, 03 Close, 3 touches drapery, small date, small fraction (ideal for date collectors) very nearly uncirculated with even brown color except for CONSIDERABLE TRACES OF RED. Dr. Sheldon says, "A very scarce coin." RARITY 4. With a condition census of 65-35, this may well be "THE SECOND FINEST KNOWN." Cost \$125.00 but we believe it is worth at least ..... 175.00
- 317—1803 S-257, small close date, LARGE FRACTION, very nearly uncirculated. Ideal for date collectors. Cost \$62.50; should now be worth more.
- 318—1803 S-258, Arc crack in lower left field, A BEAUTIFUL GOLD-EN BROWN UNCIRCULATED GEM JUST STARTING TO TURN A DEEPER BROWN. Ideal for small date, Large Fraction type. Cost \$150.00 but with the increased demand we would not be surprised to see it bring closer to ..... 200.00
- 319—1803 S-258, Without the usual arc crack, extremely fine. SCARCE. .... 50.00
- 320—1803 S-259, Famous "Ghost 3," very fine with steel color. RARE (RARITY 6). Dr. Sheldon says, "A rare coin." Dupont specimen only fine. Should be worth ..... 100.00

- 321—1803 S-260, Small close date, Large Fraction. We have traced this back to the original Clarke collection (not the one sold in 1956) where he had acquired this as a "PROOF". This is understandable as it does have a beautiful lustrous reddish brown color. The present owner acquired this "showpiece" at ..... 250.00
- 322—1803 S-261, Small date, Large Fraction, very fine. Rarity 3. Over three times as scarce as the "common" variety. .... 30.00

323—1803 S-263, Divided Date 1803, characteristic heavy die cracks on reverse, uncirculated with lustrous chocolate color. A beautiful example of the small date, small fraction. Now Rarity 3 with basal value nearly doubled. Cost \$135.00 but with the increased demand, should now bring over ..... 175.00

324—1803 S-264, LARGE DATE, SMALL FRACTION (ONLY DIE WITH THIS "TYPE") very fine as to wear but surface granulated. VERY RARE (HIGH RARITY 6). Dr. Sheldon says, "I have seen at least a dozen, possibly fifteen. But I have seen only one in EF condition." We handled this EF specimen he mentions and later were offered \$1,000.00 for it. The present owner declined to part with it. THIS SPECIMEN IS THE "SECOND FINEST". The die cracks on obverse and reverse probably account for the rarity of this die. The Dupont specimen was only "about very good." The Standard Catalog (1954) lists this variety in fine at \$200.00. The present owner acquired this outstanding rarity at ..... 975.00

- 325—1803 S-265, LARGE DATE, LARGE FRACTION, very fine. IN GREAT DEMAND AS A "TYPE". Difficult to obtain so choice. Cost ..... 200.00

327—1804 BROKEN OBERSE DIE ONLY, extremely fine with even wear and even chocolate color. THE MOST DIFFICULT OF THE THREE DIES TO OBTAIN IN CHOICE CONDITION. AN OUTSTANDING RARITY SO CHOICE AND COMPARES FAVORABLY WITH A SPECIMEN WE SAW NOT TOO LONG AGO PRICED AT ..... 1500.00

- 328—1804 PERFECT DIES, very fine. RARE SO CHOICE. We have seen comparable specimens priced ..... 500.00

## CHOICE LARGE CENTS (Continued)

- 330—1805 S-268, Blunt 1, very nearly uncirculated and sharp, 2 or 3 pinpoints on reverse. **RARE (RARITY 6).** Not in Dupont collection. Dr. Sheldon says, "Decidedly rare. I have never seen more than a dozen examples of it." ## OBSOLETE COINAGES OF U. S. TRADE DOLLARS

---

Issued from 1873 thru 1878 for circulation and 1879-1885 for collectors. Intended for circulation in the Orient to compete with the Mexican peso. It has more silver than the regular silver dollar. With the decline in the price of silver bullion in 1876, the Treasury was authorized to limit the coinage to export demand. Finally, in 1887 the law authorizing the Trade Dollars was repealed and the Treasury redeemed them at face value for a limited time. THE ONLY U.S. COIN WHICH IS NOT NOW LEGAL TENDER.

## TWENTY CENTS

Altho struck 1875-78, only the 1875-S, CC circulated to any extent. The 1875 and 1876 are seldom encountered in conditions below very fine signifying their limited circulation. The 1877 and 1878 were struck in proof only to supply the demand by collectors. Since this demand did not prove to be as great as anticipated, many of the 1877 and some of the 1878 were melted resulting in their being rarer than the mint figures would lead one to think.

### \$3 GOLD

Very popular with new records being set just about every time offered. This is easily understandable when the small quantity issued is taken into consideration. We believe present day prices will appear as "bargains" a few months hence.

1137—1854-O TYPE I, TINY "DOLLARS", very fine. Only "O" mint. 65.00

**1138—1854-D Very nearly uncirculated, sharp. ONE OF THE CHOICEST SPECIMENS WE CAN RECALL HANDLING (WE HAVE YET TO SEE A STRICTLY UNCIRCULATED SPECIMEN). The only "D" mint \$3 gold issued. ONE OF THE MOST UNDERVALUED, IF NOT THE MOST UNDERVALUED, IN THE SERIES. According to our "rarity table" based on supply and demand, this choice specimen should be worth \$500.00; what it will actually bring in this instance, you must decide with your bid.**

## \$4 STELLA

An interesting experiment for an "International Coin" easily convertible into that of various foreign countries. While the idea was not adopted, the coins remain as an interesting bit of history of "what might have been."

**1167—1879 Flowing Hair, AW-1577, struck in aluminum, BRILLIANT PROOF WITH WIRE EDGE. ONLY 4 OR 5 STRUCK COMPARED TO THE GOLD OF WHICH 415 WERE STRUCK. With gold specimens now bringing \$1500.00 to \$1600.00, it is difficult to determine what this outstanding rarity might bring. You must determine its value by your bid.**

<p>1168—1880 Flowing Hair but MUCH SMALLER DATE, AW-1631, struck in copper, GLITTERING RED PROOF. ONLY 13 TO 15 STRUCK. EQUAL IN RARITY TO THE 1880 GOLD SPECIMEN WHICH NEARLY A YEAR AGO BROUGHT.....</p>	\$3500.00
--	-----------

Just prior to the time the United States issued the Stella as an answer to an international gold coin easily convertible into that of other countries, France and England also experimented with the idea. The following is the French answer. We quote from Adams-Woodin book on United States Pattern, Trial and Experimental Pieces—page 78: "Principal among the pattern coins of 1868 struck at the mint was the international gold piece of the denomination of five dollars and twenty-five francs. Although intended for a five-dollar piece, so far as known the coin was struck only in copper and aluminum, and was designed by Anthony C. Pacquet. It was the outcome of the endeavors of a monetary convention held at Paris in 1867 to determine upon an international gold piece of a fixed interchangeable value. **The French mint struck its counterpart in gold,** the obverse of which bore the laureated head of Napoleon III, underneath being the engraver's name—"Barre". On the reverse was the inscription "Or Essai Monetaire," and within the wreath was inscribed "5 Dollars 25 Francs."

**"The President of the French Commission on Coins and Medals gave Samuel B. Ruggles, the United States delegate to the convention, three specimens of this coin for presentation to the President, Secretary of State and Secretary of the Treasury of the United States, and a fourth specimen to Mr. Ruggles."**

**\$5 "QUINTELLA" (INTERNATIONAL \$5 GOLD)**

**1169—\$5 1867 25 Francs, PERFECT BRILLIANT GOLD PROOF.**  
 This is the only one of the four specimens mentioned above that we know of. **OF FAR GREATER RARITY THAN THE \$4 STELLA, AND IF NOT UNIQUE, CERTAINLY VERY NEARLY SO.** The irresistible combination of **UNSTANDING RARITY** and **OUTSTANDING CONDITION** should certainly send this coin well over \$2,000.00 and possibly in the neighborhood of \$2,500.00. The only reason it may not exceed the latter figure being that it has not been publicized as have been the \$4 stella's. If this **"QUINTELLA"** had received the equivalent publicity to the \$4 Stella, it would probably bring around.....**\$10,000.00**

**1170—\$5 1868 25 -Francs, THE UNITED STATES PATTERN AW-655,** the central portion of the reverse denoting value is fairly similar to the above French piece. The U.S. piece however, has a wreath surrounding the value. Liberty head obverse surrounded by United States of America 1868. Struck in aluminum (only struck in copper and aluminum—no gold) and designed by Anthony C. Paquet, proof..... **25.00**

## HALF EAGLES (\$5 GOLD)

After being dormant for several years, we note a remarkable increase in interest in this series. While the last edition of the Guidebook has shown an increase in values for a number of dates, we believe this trend will be reflected to a somewhat greater degree in the next edition.

**1171—1795 SMALL EAGLE, PROOFLIKE WITH ORANGE TINT. A BEAUTIFUL SPECIMEN OF THE FIRST YEAR OF COINAGE. JUDGING FROM THE VERY STRONG DEMAND FOR THIS DATE, PARTICULARLY IN CHOICE CONDITION, WE WOULD NOT BE SURPRISED TO SEE THIS RARITY BRING\_\_\_\_\_ 750.00**

1172—1797 15 Stars, Small Eagle, only barest friction on highest points, considerable traces of prooflike surface. VERY RARE. The double die break across the reverse probably explain the rarity of this date (no doubt the die broke early during the striking). Greatly undervalued in keeping with its true rarity. In point of rarity we believe this specimen is worth around \$1500.00; what it will actually bring must be determined by the bidders.

1173—1797 TYPE II, 16 Stars (Tennessee admitted to the Union) small eagle, struck in copper. We quote from the description accompanying the coin, "The unique "mutilated" trial piece in copper. Ex Woodside Coll., 1892, and the Brock, University of Pennsylvania collections. Like the last, hardly beautiful, but a highly valuable historical item for those interested in the romance of the early Mint. Unique. The smashing (by a blunt instrument) of this otherwise Very Fine coin, was done at the Mint, and was a regular practice with all copper trial pieces of gold or silver design, in order to prevent counterfeiting via plating. Compare A.W. 19." Valued by owner at\_\_\_\_\_ 500.00

## EAGLES (\$10 GOLD) (Continued)

1363—1797 SMALL EAGLE, PROOFLIKE WITH ORANGE TINT. VERY RARE. Our records indicate that this is at least four times as rare as the 1795 in frequency of appearance. One of the most undervalued of the entire series! In point of rarity and condition, this elusive date should be worth at least \$1000.00, but until it is appreciated for the rarity it is, it will probably bring closer to \$750.00 or \$850.00

<b>1364—1797 LARGE EAGLE, first 8 stars at left small, next two Large and 6 stars at right medium size (first time we can recall pointing out this "confused die") brilliant uncirculated. RARE SO CHOICE.</b>	<b>300.00</b>

IN FACT, IT HAS THE THIRD SMALLEST ISSUE OF THE ENTIRE SERIES.** We honestly believe this rarity is worth a minimum of \$ 350.00

## DOUBLE EAGLES (\$20 GOLD)

---

We note a sharp increase in demand for gold coins the past year with prices edging up in nearly every sale. This is easily understandable when a person stops to realize how little premium many can be obtained for over their actual metallic value of about \$35. We cannot help but feel that this small premium must inevitably rise in the near future.

Christopher Jr.) operated a "private" mint at Rutherfordton, N.C. (Rutherford county was the principal source of gold from 1790-1840. The variety of sizes and weights were due to some of the gold containing various other metals. The rarity of these coins is probably due to their being melted and recoinced into U.S. coins at Charlotte, N.C. after the mint was established there in 1837. When the U.S. law was passed on August 1, 1834 reducing the weight and value of the U.S. gold coins, the Bechtlers noted this date on their coins indicating compliance.

### LESHER "DOLLARS"

Since the Guidebook included these interesting "PIONEER SILVER DOLLARS" in the last edition on page 229, we have received a number of inquiries regarding them. They form an interesting chapter in the history of the West and properly belong in a collection of "Pioneer and Territorial Gold" and in a "So-Called Dollars" collection (listed also in Kenney). The valuations placed on them in the Guidebook seem rather modest in keeping with their true rarity. Since only a few hundred of the "common ones" were issued (how many can still remain in existence?) and only a literal handful of the "rare ones", it stands to reason that now with the demand being created, prices will rise rapidly.

## 1861 DEMAND NOTES

---

A very interesting series being the first issue of U. S. currency as we know it today. Since the backs were printed in a deep green, they soon acquired the popular name of "Greenbacks". THE ONLY U. S. CURRENCY WITHOUT EITHER THE TREASURY SEAL OR ACTUAL NAMES OF THE REGISTER AND TREASURER OF THE U. S. Since these notes WERE REDEMABLE IN GOLD (ON DEMAND) THEY ACQUIRED OVER A 50% PREMIUM ABOVE THE 1862 LEGALS which circulated side by side with them. Naturally, everyone rushed to redeem the Demand Notes for the extra premium (caused by the Civil War). That any have survived today, is indeed remarkable. What few have managed to escape are almost invariably in wretched condition. The catalog reflects this by listing them in only fine condition.

- 1678—\$5 Payable at New York, Friedberg 1, very fine. VERY RARE SO CHOICE. Just try and find an equal specimen. Should be worth at least ..... 400.00
- 1679—\$5 Payable at Philadelphia, F2, just about fine. RARE. Superior to the usual specimen. .... 175.00
- 1680—\$5 Payable at Boston, F3, very good. RARE. .... 150.00
- 1681—\$10 Payable at New York, F6, well worn and frayed but legible. RARE. Fine specimens are now around ..... 350.00

1682—\$10 Payable at Cincinnati, F9, fine appearing with nice color but repaired (which most of the few surviving notes are). NOT EVEN PRICED IN THE CATALOG WHICH SAYS, "EXTREMELY RARE" IN PLACE OF A VALUATION. It is difficult to place a valuation on such a rarity but we would be surprised if it did not bring between \$1000.00 and ..... 1500.00

## LEGAL TENDER NOTES—LARGE SIZE

---

Issued from 1862 thru 1923. This series is a direct obligation of the government and contains some beautiful examples of engraving. The 1862 issue was printed by private concerns but with the advent of the 1869 issue, the Bureau of Engraving and Printing entered the picture and by the time the later 1880 series were printed, the Bureau was doing the entire job.
